

ICMCS-2017 continues the series of International Conferences in the field of automatics and robotics, biomedical systems, micro- and opto-electronics, computer science and communications, nanotechnology and nanoelectronics. The conference aims at bringing together scientists and engineers dealing with fundamental and applied research for reporting on the latest results and achievements in the fields involved.

TOPICS

Contributing papers are called in the following areas:

1. Automatics and Robotics
2. Biomedical Systems
3. Micro-Opto-Electronics
4. Nanoscience and Nano-technology
5. Computer Sciences and Networks
6. Communications and Electronic systems
7. Cyber Security
8. New Technologies for University education
9. New Spatial Technology Workshop

ICMCS-2017 PROGRAMME

ICMCS-2017 program will consist of invited and contributed papers (oral and poster sessions). The presentation should not exceed 15 minutes (contributed papers) and 25 minutes (invited papers). For poster sessions authors may use materials within a 100x100 cm² panel.
